

### **Fast Facts**

Flashcom LTD is a leading provider of communication services, offering telephony, internet access, fax and SMS services to the business and individual market segments.

Launched in 2005, Flashcom was licensed as a Local Loop Operator providing fixed wireless telecommunications services affordably. We have partnered with leading a global telecommunications equipment supplier and established a world-class telecommunications network. Flashcom is 100% owned by Kenyan investors whose vision is to provide an opportunity for local talent to take part in the development of Kenya's telecommunications infrastructure.

In November 2006, Flashcom won the **Best Local Loop Operator** award at the 11<sup>th</sup> Annual Computer society of Kenya awards. Flashcom has been voted again for the second year running as the **Best Local Loop Operator** in 2007 during the 12<sup>th</sup> annual Computer Society of Kenya awards. This is a major achievement given that the telecommunications sector is dominated by large multinationals with foreign ownership and management.
